

# Mandated Vaccine Requirements

*by*  
Phil Rasmussen

We've all heard it, once vaccinated you are immune. However the Delta variant along with the original Covid-19 viruses seems to counter that statement.

The government, business and educational institutions are starting to require a person be vaccinated before entering or doing business with these groups. They do not consider those who have already had Covid and are immune or those with natural immunity.

In other words it is the needle or no service. Not only is this immoral and unethical, but it goes against the law and our Constitution in many aspects.

So how should business deal with "requiring" employees be vaccinated? The answer is simple and not complicated. The first thing that a business needs to do is to determine why they want to make such a requirement. Consciously or sub-consciously it is because the business wants to cave into the leftist desires.

But wait, if an employee is already vaccinated and is immune, then why have the requirement? It is like saying that in order to be employed here you must meet at least one of the discriminatory factors that make up discrimination law – race, sex, national origin, etc.

The simple way around such a requirement is to tie the vaccination to medical insurance. If you are vaccinated, you get full insurance coverage. If not vaccinate, you do not get any medical coverage for Covid related illnesses.

Another alternative which is more drastic is CDC's approach to handling those who are not vaccinated. View their plan at <https://www.cdc.gov/coronavirus/2019-ncov/global-covid-19/shielding-approach-humanitarian.html> and then prepare to stand up for your rights and freedoms.

Further evidence of how unvaccinated people will be handled can be found in the Tennessee governor's executive order #83 (<https://publications.tnsosfiles.com/pub/execorders/exec-orders-lee83.pdf>) which allows for involuntary quarantine and isolation facilities (paragraphs 8, 14, 20, and 21 in particular). This EO is a shadowy order that fall in line with Hitler's 1938 orders to "incarcerate" Jews without fair trial. What's next – the ovens or gas chambers? With our current administration and Democrat governors DO NOT be so ignorant as to believe that it won't happen in our country/
